

Gary Summers

KEYNOTE - SEMINARS/WORKSHOPS - ENTERTAINMENT

Since 1997, I have been presenting a program called **“DISCOVER THE MAGIC WITHIN YOU - SAY NO TO DRUGS”**. The areas that I visit and the young people that have seen this program grow each year. This program was designed and written based on the school health curriculum for grades k-8.

Over the years, I have been continually asked to develop a program for high school students. I am happy to say that I now have three (3) programs called **“LIFE SKILLS FOR STUDENTS”** starting with Jr. High and continuing through to include level three (3) high school students.

I have worked with the Dept. of Education as well as the RCMP and the RNC drug awareness divisions on this program since 2005.

This area of my web site contains the following information:

- Sample video from my programs.
- Testimonials from former teachers and administrators.
- Complete program descriptions.

I have been developing unique educational school programs for the past 10 years and each program has grown significantly. I truly believe that my **“LIFE SKILLS FOR STUDENTS’** program is the best to date.

Below you will find letters of endorsement from a variety of agencies.

To Whom It May Concern

Re: Gary Summers

In September, 2005, Gary Summers contacted me concerning a series of seminars he had developed called "LIFE SKILLS FOR STUDENTS." These seminars would teach our high school students principles and strategies that would assist them as they move into a life beyond high school. I was somewhat familiar with another program Gary had developed called "DISCOVER THE MAGIC WITHIN YOU - SAY NO TO DRUGS" and because I heard a number of positive comments about this program, I was eager to listen and see what Gary had developed.

Gary has developed three (3) seminars that take students from the time they enter high school (or just before) through to graduation and beyond.

As I looked through the material and videos, I was very impressed with not only the message content but also the powerful videos Gary had developed. These videos reinforce the life lessons discussed in each seminar.

Gary did a pilot program at Gonzaga High School and the results from that pilot were very positive both from the teachers' and students' perspective.

I encourage high school students to attend Gary's three (3) seminars as they reinforce our schools' message of hard work and positive thinking.

Good Luck Gary, and congratulations on developing a wonderful seminar.

Sincerely,

A handwritten signature in cursive script that reads "Eldred Barnes".

MEMORANDUM

To: Gary SUMMERS
From: Sgt. Bill DWYER
Date: 2006-02-15
Subject: Your Presentations

I would like to thank-you for helping to bring the Drug Awareness message to the people of Labrador in the past few months with your presentations and magic shows along the Labrador coast. In every community many people have called or spoken to our members to express how your show encouraged the youth to make healthy choices about drug use.

Cpl. Keith MACKINNON of our Labrador RCMP Drug Awareness office worked with you to deliver the Drug Awareness message and has commented on the professionalism displayed through presentation style as well as the program content. The message is delivered in a fun and educational manner for youth which captures their attention in a way which will make them remember that they should not use drugs the next time they are confronted with that choice.

I have personally viewed your new program *Life Skills for Students* and was very impressed with the message as well as the content. I would recommend that high school students attend these seminars to give students valuable skills to help achieve their true potential. I support your programs and look forward to working with you again in the future.

Regards

Bill Dwyer

To Whom It May Concern:

I am pleased to endorse the “Life Skills for Students” Program offered by Mr. Gary Summers. The “Life Skills for Students” Program will provide students with information on how to make informed decisions and choices, eventually leading to more rewarding and fulfilling lives. This program will be an asset to students as they are faced with a variety of situations as they move from the school environment to the work setting.

I believe that Mr. Summers has the best intentions of students at heart and his program will help lead them down the correct path in life. The Royal Newfoundland Constabulary has endorsed Mr. Summers and his programs in the past and we have the utmost confidence in his ability and knowledge as an educator.

Any questions or concerns regarding this letter of endorsement can be addressed to:

Division of Life Long Learning

May 8, 2006

In 2002, Gary Summers approached Memorial University's Division of Lifelong Learning with an idea that combined empowerment and hypnotherapy to help people make life changing decisions.

We liked the idea and decided to do a pilot and have not looked back since.

Gary has provided a very unique way to offer people suggestions and techniques for self improvement. The evaluations have been quite positive for those who have attended Gary's seminars in Stress Management and Relaxation, Smoking Cessation and Weight-loss etc.

We look forward to a long term relationship.

Gary has just finished a new program called Life Skills for Students where he provides insight on how life really works. With such a positive response from the attendees at Gary's other seminars, I can understand the tremendous benefit high school students can receive and I encourage these students to attend all the seminars.

Good luck Gary with this new endeavor. I know it will be very successful
